The Bomb Squad Prequals : Episode 2

**THE BOMB SQUAD
> EPISODE II****
>
 What a fuss it was.. Kuckles didn't know who to assaign to do what!
> I volounteered to do the worst job.... shut down MADRIX'S floating metalic island's power supply. Its dangerous. I am hoping at this time that Catastrious has those lightsabers done.
 Cheerious was assinged to overwrite computer files in the metalic island's core, Mace and Windu were in charge welcoming the squad into the building.(You know destroying bots... the usual!) And Knuckles would be the one to battle ::gulp:: MADRIX.... It was set. We were to meet at exactl 2:00 p.m. in the front of the metalic island's gates.
>
 2:00 p.m. came quickly... We all met in the instructed area, and Catastrious was handing out the lightsabers! "YEA" , I said to myself. Before I knew it I was headed torwards the power supply sector. While Catastrious, and Knuckles were headed torwards much danger. The power supply sector was hot and steamy. Not destroy bots were around. I took out my lightsaber and cut the supply in half, jammed the alarms, and rushed to the computer core.
>
 "Catastrious!", I called. "Wow you made it!? I am almost done rewriting the files... If I am correct I can make the battle bots turn to our side that are around the entrance to MADRIX'S trone room, if I haev extra time.", said Catastrious "Really?", I exclaimed. " "Really, its for sure, I jsut did it when I was talking to you without knowing..... Lets go get the brothers and go help Knuckles!", said Catastrious. "Right 'O 'ol chap!", I said.
>
 To our surprise the brothers were outside the door where Knuckles and MADRIX were battling. They said it was bad. The doors were jammed, not even the JEDI brothers' force powers could destroy the door! It was stuck.... All of a sudden 5 minutes later Knuckles came flying out the door, but with something in his back-pack, something red, shiny, and powerfull... It was the red emerald. The

metalic island was selfdestructing, and MADRIX had escaped with the emeralds to his backup isle... Where he could plan.
>
 We all were out of there just in the nick of time. There was no way that MADRIX could get away with this....
>
